Setting Up Your Homework Blog

A Quick Wordpress.com Tutorial

Sam Rangel

Student Advisor

River Heights Intermediate School

1. Go to **Wordpress.com**.
2. Click on the Get Started Here button
3. Create your blog name.
4. Your blog name will be your username.
5. **Choose a generic password – Not your personal email password. Use something easy to remember like RHIS2012 or PASS2012. You'll be giving this password to a student.**
6. Enter your school email address. This will be where Wordpress will send you a confirmation email.
7. Click the **Create Blog** button.
8. Check your school email and click on the activate link.
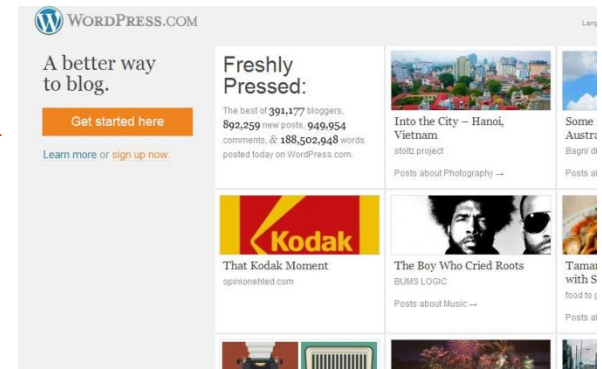

www.misterrangelhw.wordpress.com
1. This is the Wordpress **Dashboard**. Here is where you will create the blog.

2. Hover your mouse over the *Post* button and select All Posts.
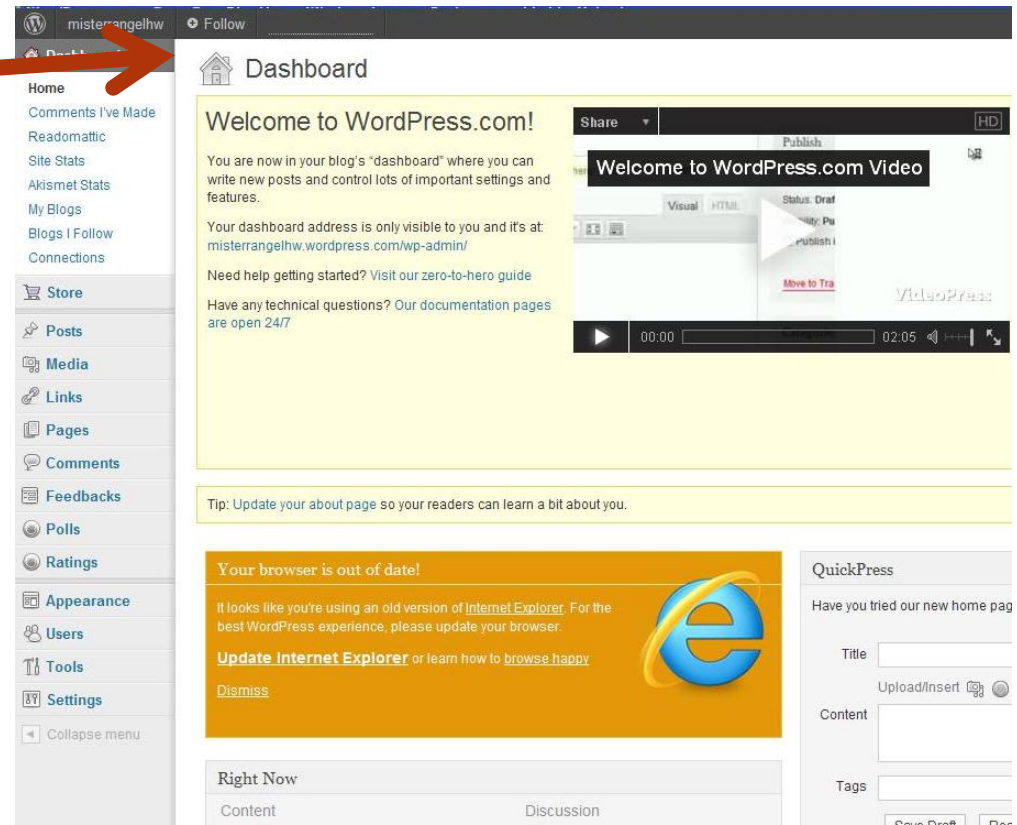

3. Go ahead and trash the first post. We'll come back to this page later.

1. Hover over the *Pages* button and select All Pages

Pages → All Pages / Add New

Upload/Insert   Visual   HTML

B I ABC ☰ ☰ 66 ☰ ☰ ☰ 🔗 🔗 ☰ ABC ⬛ ⬛

My name is Mr. Rangel, and this is my homework blog.

Update

1. Now hover the mouse over the **Settings** button and select General.

2. Change your Blog Title and Tagline and click **Save Changes.**

1. Hover over the *Posts* button and click Add New. It's time to write your first post.
2. Give it an appropriate Title like: *Homework for Monday…*

1. Add the homework for today.
2. Click the Publish button.
3. Check out your page.

Pretty cool. Huh?

Now all you have to do is teach your TA's how to log in to the dashboard and upload a new post.

Give your parents the website address, and they can now know what is for homework every day.

For the most part, your work is done.

I hope this was helpful.

Questions?
